Accessible Anywhere

Responsive screens for laptops, tablets, and phones.

ABOUT

Designed for focused online assessment workflows.

For students

Find available exams, read instructions, complete timed papers, and review marks from one portal.

For lecturers

Create questions, manage assessments, and inspect submitted results without switching systems.

For admins

Manage modules, users, exam schedules, and result records with a consistent control panel.

FEATURES

Controls that keep exam sessions clear and dependable.

01

Availability Windows

Start and end times decide when students can participate.

02

Single Attempt Guard

Completed exams cannot be submitted again by direct URL or POST.

03

Accurate Scoring

Unanswered questions count toward the total and selected answers are checked against the exam.

04

Responsive UI

Tables, forms, cards, and exam questions adapt without overlapping.

HOW IT WORKS

A simple path from setup to submission.

1

Create modules and exams

Admins define the exam schedule and module ownership.

2

Add questions

Lecturers attach MCQ questions to active exams.

3

Start and submit

Students join during the allowed window and submit before time expires.
